

Wake Forest Montessori Sick Policy

Fever

If your child runs an auxiliary temperature of 100 or higher, he/she must be picked up within an hour of notification from school. He/she must remain out of school until he/she is **FEVER FREE** for 24 hours WITHOUT MEDICATION.

Diarrhea/Vomiting

If your child has 2 cases of diarrhea or vomiting in one hour, he/she must be picked up and cannot return to the school until they are SYMPTOM FREE for 24 hours.

Pink Eye

After pink eye has been diagnosed, your child must have 3 doses of medication before returning to school.

Shots, Vaccines & Immunizations

If your child has had any shots, vaccines/immunizations, please have the physician write a note that states your child may run a fever for "X" amount of days. If we do not have a physician's note and your child does run a fever, they will be sent home and will not be able to return to school until they are fever free for 24 hours.

Rash

A rash may be a sign of many illnesses, such as measles or chickenpox. In infants, an external rash may be a sign that something is going on internally. Please do not send your child to the center with a rash until the doctor says it is O.K. to do so.

In ANY case, your child can return to school immediately if you have a physician's note stating that your child is not contagious.

This policy is for the well being of our children and families within our school. Thank you for your cooperation.
